

MANUAL SWEEPER

GMS40

The Godrej Manual Sweeper effectively sweeps a variety of floor surfaces such as concrete, asphalt, tile, wood and carpet. It is practical and useful indoors as well as outdoors to clean hallways, passages, workshop or warehouse floors and outdoor pathways. It is the best suited machine for noise-sensitive indoor environments. Its compact construction allows it to easily pass through doorways.

Steel skeletal frame:
Strong light-weight frame, powder coated for durable finish

Tool free pressure adjustment:
Hand operated knob sets main brush pressure to suit different floor conditions and debris

Quick, easy removal of dust hopper:
Convenient locking knob and lifting handle Fibre reinforced plastic hopper – strong, durable and light-weight

Rubber skirting on sides:
Ensures dust thrown by side brush is trapped and picked up by the main brush

Front caster wheel:
For ease of operation

BENEFITS

- Effectively cleans light litter, loose soil and small industrial and commercial debris
- Side brush cleans hard-to-reach spaces like kerbs, wall corners and crevices
- Light weight hopper with lifting handle – one step removal for emptying
- 700 mm wide sweeping path – cleaning capacity of 1500 sq. m per hour
- 40 litre hopper capacity allows cleaning of large area before hopper needs to be emptied
- Manual operation means no batteries to re-charge and no power chords to manage, Virtually maintenance free operation

APPLICATIONS

Factories and workshops
Stores and warehouses
Hotels
Hospitals

Petrol pumps
Railway stations
Parking lots
Open pathways

Airports
Shopping malls
Housing colonies
Stadiums and auditoriums

HOW IT WORKS

Main brush

- Long lasting polypropelene bristles
- Bristle pattern maximizes collection of dust

Effective sweeping mechanism

- Geared brush drive throws debris forward into the hopper
- Sweeps variety of surfaces such as concrete, asphalt, tile, wood and carpet

Efficient dust collection

- Effectively collects industrial and commercial debris like small nails, pins, bolts, paper, tape, plastic, leaves, loose soil, pebbles etc.

Side brush:

- Sweeps debris away from walls and corners into the path of the main brush

- The operator pushes the machine forward. Rolling motion of the wheels drives the main brush through a gear train
- Large diameter rubber wheels and gear train ensure that minimal effort is required to push the sweeper

Benefits of side brush:

- Can be folded up for storage and transport
- Spring loaded mechanism ensures correct pressure applied for effective cleaning
- Belt driven from the main gear train

TECHNICAL SPECIFICATION

Cleaning capacity	1500 sq.m/hr
Cleaning path width	700 mm
Hopper capacity	40 litre
Packed weight	31 kg
Machine weight	25 kg
Machine dimension L x B x H (Without Handle)	790 mm x 760 mm x 460 mm
