

B O O K S T A C K S

Books. One of man's most prized possessions. To aid him in his never ending quest for knowledge. To provide him with an invaluable guide for disseminating knowledge through the written word.

However books are not only expensive but are often difficult to get and if lost, still more difficult to replace. It is therefore imperative that equipment for systematic storing and easy reference is installed.

That's where Godrej Book Stacks come to the rescue, a cost effective way to keep books systematically and safely.

Godrej Book Stacks

Godrej Book Stacks are ideal for individual users, corporate and public libraries, educational institutions, schools, colleges, research institutions, universities, clubs, etc.

It is the unique design and construction of a Godrej Book Stack that facilitates systematic storage and easy retrieval of books.

Besides Godrej Book Stacks can also be used to keep boxes containing valuable documents or even computer disks.

Streamlined design offers greater visibility

Godrej Book Stacks besides having a streamlined look are also carefully constructed to utilise the minimum of space. Besides the design of Godrej Book Stacks are such that books stored can be clearly seen and are easily accessible. The modular concept utilises flexibility in layout as well as future expansion of the system without difficulty.

Steel

All components are fabricated from prime quality steel of carefully chosen specifications and thickness for ensuring the required structural strength.

Construction

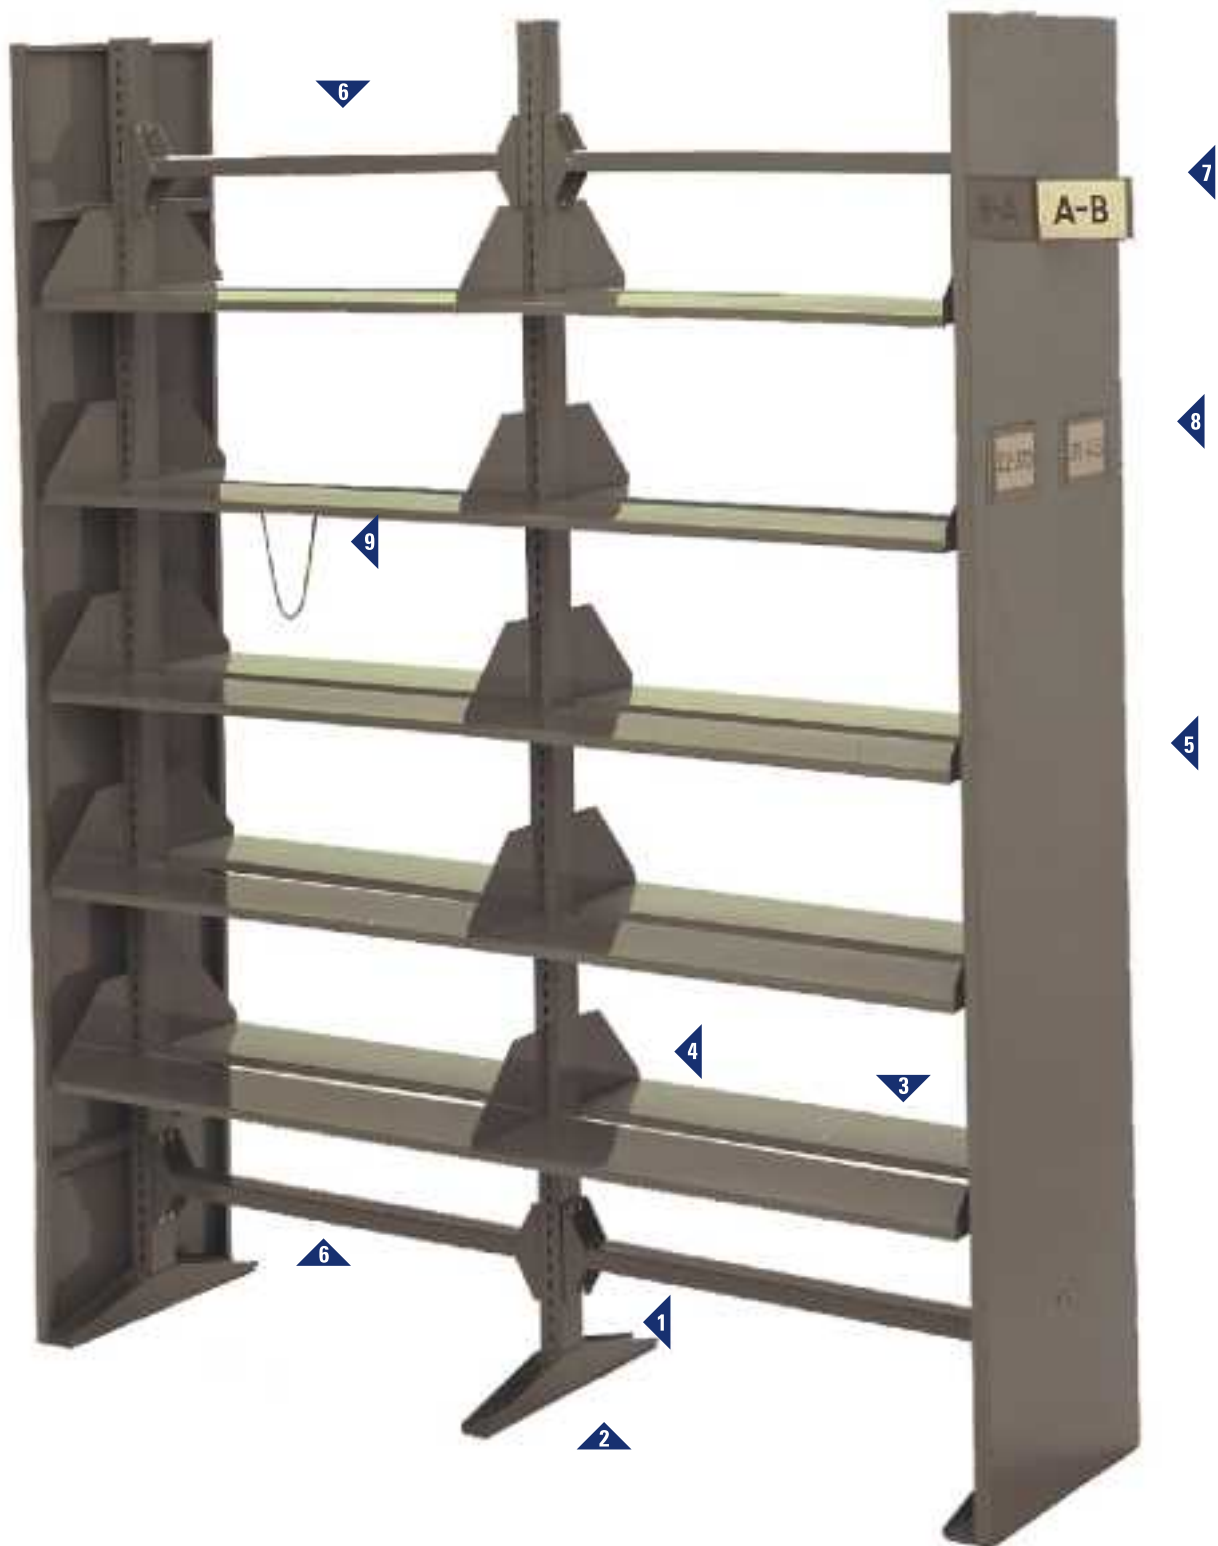

All steel components are fabricated using precision tooling and modern sheet metal working technology. Skilled workers ensure high quality workmanship and a neat finish.

Stanchions & shoes

Stanchions are uprights of box section with slots on both sides along their length at a pitch of 29 mm approx. permit adjustability for fixing shelves, as required, thus improving space utilization.

Specially designed shoes are provided for transmitting the load to the floor and supporting the stacks. Shoes have provision for taking foundation bolts which can be secured to the floor for permanent fixing.

The stanchions are common for all types of stacks.

Book Stacks : Basic Plus One Add-on Double Faced Unit

1 Stanchion
2 Shoe
3 Shelf

4 Shelf Bracket
5 End Cover D.F.
6 Bracing Channels

7 Range Indicator
8 Label Holder
9 Movable Book Support

Adjustable shelves & shelf brackets

Specially designed shelves & shelf brackets are capable of taking a UDL of 60 kgs. 2 shelf brackets (RH & LH) are used for fixing 1 shelf to the stanchion. Shelf brackets are boltless and therefore can be repositioned, easily at required levels.

End covers

To enclose each block of Book Stacks, end covers can be provided. Label holders and range indicators are fitted on one side of the block for ease of identification. For economy, blocks without these covers may be used without any effect on the rigidity of the stacks. Covers are available both for single-faced and double-faced stacks.

Bracing channels

For each stack, two 'U' type horizontal channels are fitted to the stanchions-one at the top and the other at the bottom to form a rigid frame.

Optional accessories

- a) Movable book support: Available at extra cost. It helps to keep books in vertical position, besides enabling users to divide the shelf space into sections.
- b) Top covers: Available at extra cost for single-faced and double-faced Book Stacks, to protect books from dust.

Colour

Godrej Book Stacks are available in Shell White colour as they blend well with any décor.

Finish

All steel components are powder coated in a state of the art powder coating booth for a scratch resistant, uniform and lasting finish, which remains attractive even after years of use.

Nationwide sales & service network

To render prompt after-sales service and meet the requirements of customers across the country, Godrej has a well established sales and service network of 13 branches and more than 650 dealers.

Long lasting

Godrej Book Stacks are long lasting, durable and remain attractive even after years of use.

Moreover unlike conventional wooden book stacks, Godrej Book Stacks are fire resistant and remain unaffected by termites and other pests.

So the next time you're looking for book stacks look no further than Godrej. And you've made a prudent decision.

Configurations and dimensions

Godrej Book Stacks come in two types of sections.

- a) Basic section and
- b) Add-on sections

For a continuous block of section, one basic section is essential while add-on sections can be added (sideways) to have a block of desired length. Also, the stacks can be single-faced or double-faced, that is operable from one side only or from both sides. Normally, the stacks positioned against the wall are single faced, that is operable from one side only.

Overall Ht. Of Book Stacks	2285 mm
Width of Basic Section with Sides	985 mm
Width of Basic Section without Sides	935 mm
Width of Add-on Section	885 mm
Depth of Single-faced stacks	350 mm
Depth of Double-faced Stacks	550 mm
Width of Shelves	880 mm
Depth of Shelves	230 mm

Customisation like end covers in particleboard available for Project orders.

How to plan your requirement of Godrej Book Stacks

- Step 1:** Determine the no. of books to be stored at present and in future.
- Step 2:** Assume one book on an average is 20 mm thick.
- Step 3:** Total width required = total no. of books x 20 mm.
- Step 4:** Total no. of shelves = total width required divided by width of shelf - 880 mm
- Step 5:** Total no. of stacks required = total no. of shelves divided by 7 for single and 14 for double-faced.
- Caution:** While preparing a layout, leave minimum 760 mm between 2 rows of book stacks.
